EDUCATION

CMR Technical Campus — CGPA: 9.58
B-Tech in Computer Science and Engineering, Hyderabad, Telangana — *2023 – 2027*

Keshav Memorial Jr. College — Percentage: 97.9%
XII – MPC, Hyderabad, Telangana — *2021 – 2023*

SKILLS & TECHNOLOGIES

Languages: Java, JavaScript
Frontend: React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, WebSockets
Databases: MongoDB, MySQL (SQL/NoSQL)
Tools: Git, GitHub, Postman, Jira
Concepts: Data Structures, Algorithms, OOP, Computer Networks

EXPERIENCE

Software Engineering Intern — Oct 2025 – Present
Mitt Arv Technologies Pvt Ltd · Part-time — *Hyderabad, India*

- Gained hands-on experience with **Agile practices** using Jira—participating in sprint planning, story/task creation, and bug backlog management.
- Utilized **Git & GitHub** with advanced workflows including feature branching, pull requests, and merge conflict resolution in a multi-developer environment.
- Collaborated in a large production-level codebase, learning to debug efficiently, navigate complex folder structures, and quickly identify code areas for new features or fixes.
- Built core UI features for web and mobile platforms using **React/Redux** and **Flutter** with **GetX**.

PROJECTS

Weather Forecast App | *Flutter, Dart, OpenWeatherMap API* | [GitHub](#) — Dec 2025

- Built a cross-platform weather application using **Flutter** with real-time data fetching from **OpenWeatherMap API**, displaying current conditions and 9-hour forecasts.
- Followed structured development practices with modular components, API abstraction, and clear state management.

Developer Portfolio | *Next.js, TypeScript, Framer Motion* | [GitHub](#) | [Live](#) — Apr 2025 – May 2025

- Developed a responsive, SEO-optimized portfolio achieving a **95+ Lighthouse performance score**.
- Enhanced interactivity and user engagement with **Framer Motion animations**, increasing session time by **30%**.

Gup Shup | *MERN, Redux Toolkit, Socket.io, Tailwind CSS* | [GitHub](#) | [Live](#) — Mar 2025 – Apr 2025

- Deployed a real-time chat application on **Vercel (frontend)** and **Render (backend)** with GitHub integration for automated CI/CD, enabling seamless updates.
- Designed backend logic using modular architecture and implemented WebSocket-based communication with reliable state management.
- Implemented **JWT and Google OAuth authentication** for secure and seamless user onboarding.

ACHIEVEMENTS

- Solved 400+ **DSA problems** across LeetCode, GFG, Codeforces, and HackerRank.
- Led teams in multiple hackathons, building leadership, collaboration, and experience with tools like Git/GitHub and Postman.
- 1st place in C-language problem-solving competition on HackerEarth at CMR Technical Campus.
- Ranked Top 5 in multiple Smart Interviews competitive programming contests.
